INSTALLING THE STUDY EDGE APP ON YOUR CHROMEBOOK

METHOD 1
Install on a single Chromebook

1. Open your browser on your Chromebook and go to studyedge.com/chromebook.
2. This will open the Chrome app store. Install the app by clicking on the Add to Chrome button.

METHOD 2
Install for your entire organization with Google Business Manager

1. Go to admin.google.com and select Device Management.
2. Select Chrome Management from the left side menu.
4. Search for “Study Edge” in the search box on the left, then click on the app when it’s displayed in the results.
5a. Select User settings for user-based installation. Allows you to select users in your organization and have the app be installed for them.
5b. Select Public session settings if you have Chromebook devices provisioned on your account. The app will be installed for anyone who logs into their account on that device.
