Our partners:

Key Features:

- Study Edge provides short concept videos and accompanying study guides and practice problems to help you with your toughest classes.
- Study Edge has contracts with the States of Texas, Florida, Mississippi, South Carolina, and Michigan as well as the New York City Department of Education to provide video-based supplemental resources.
- Study Edge uses young, engaging instructors who are always viewable on the screen. Pairing these instructors with a patented video delivery platform, web and mobile access, and a best-in-class content development system, Study Edge provides resources that are unmatched even among the largest education publishers and EdTech companies in the world.
- Published research in academic journals in the United States have shown that Study Edge's videos are more effective than anything else on the web.
